

Name of person giving feedback: _____

PEER FEEDBACK

INTERDEPENDENCE PHASE:

When a family becomes Interdependent they value growth, accountability, independence and responsibility. Individual members are driven by an internal locus of control and feel a sense of self-confidence and worth. The family understands that it is healthy to provide and receive appropriate levels of guidance, support and structure. Family members are resilient to stress, remain flexible, and are intentional in their relationships. A state of Interdependence allows the family to continue the process of healing and growth in their future together.

On Interdependence Phase the student **consistently shows:**

- ☞ consistently shows she can follow the rules without complaint and without staff direction
- ☞ consistently shows she can do chores well & without complaint
- ☞ consistently shows she can be open in therapy
- ☞ consistently shows she can participate & learn in school & group
- ☞ consistently shows she can take responsibility for her treatment issues by going to uncomfortable places in therapy
- ☞ consistently shows she understands her core issues
- ☞ consistently shows she can correct inappropriate behavior
- ☞ consistently shows she can be honest with staff and peers
- ☞ consistently shows she can make good choices
- ☞ consistently shows she can give feedback respectfully and accept it non-defensively with all people including her family
- ☞ consistently shows she can make choices that match her values
- ☞ consistently shows positive leadership in the community
- ☞ consistently shows internal motivation
- ☞ consistently shows she can ask for support as well as give it when needed
