

Name of person giving feedback: _____

PEER FEEDBACK

EXPLORATION:

On Exploration Phase of healing the student is still externally motivated while she and her family begin to explore and rediscover their values. They learn and establish an attitude of openness to new information about themselves, specifically self-defeating behaviors. The student still manifests the necessity of continual staff direction. She is mostly teachable, open to learn in therapy and school, and is compliant with expectations. The family is able to give feedback in respectful ways and receive it non-defensively, as well as identify and acknowledge treatment issues.

On Exploration Phase the student is **willing**:

- to follow the rules when staff asks her to be compliant
- to do chores
- to take meds without complaint
- to be open in therapy
- to attend and learn in school and groups
- to admit she needs to be at New Haven
- to be safe
- to identify her treatment issues
- to begin looking at her responsibility in her treatment issues
- to give feedback respectfully and accept it non-defensively
- to be honest and start to step out of her comfort zone
