# 93%

OF STUDENTS<sup>1</sup> REPORT THAT THEIR PRIMARY REASON FOR NEEDING RESIDENTIAL TREATMENT WAS *successfully treated*

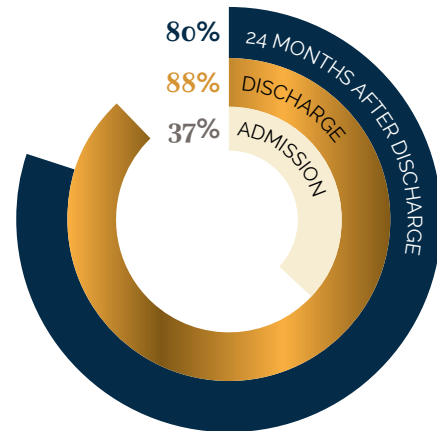

Assessed using the Family Interaction and Communication Scale (FICS-S), a proprietary instrument.

“ The program brought about *dramatic positive changes* to our family in ways we did not expect seven months ago. My daughter is starting high school with a very strong base of core values that will serve her well her entire life. *Communication in our family is better than it has ever been* and all members of our family feel invested in it. Dramatic improvement in a relatively short period of time indeed!”

BASED ON MOTHERS' REPORTS<sup>1</sup>

## Families Are Healthy

- ☑ achieved the ability to effectively communicate with one another
- ☑ build and repair their relationships
- ☑ are able to hold appropriate boundaries

Assessed using the Family Interaction and Communication Scale (FICS-P), a proprietary instrument.

9 out of 10

students<sup>2</sup> are on-track to **graduate from high school** or receive a GED
